

Certificate of Conformity

PRODUCT: Bovine Mature Plasma, Non-Sterile Sodium Citrate

CODE NO: 37140

LOT NO: 17447

STORAGE: At or below -10 °C

DESCRIPTION: Mature bovine plasma is collected using one part 3.8% Sodium Citrate to 9 parts blood. The plasma is separated from blood cellular components by centrifugation, decanted, and bottled. The animals come from the contiguous 48 United States and are processed in a USDA inspected facility where animals receive ante and postmortem inspection and are found free of contagious diseases.
