

## Certificate of Analysis

**PRODUCT:** Rabbit Lung with Trachea, Young\*

**CODE NO:** 41226

**LOT NO:** 13138

**DATE OF  
MANUFACTURE:** May 10, 2016

**STORAGE:** At or below -10 °C

**ORIGIN:** New Zealand White rabbits, 8-12 weeks old, are obtained from established and monitored colonies located exclusively in the United States. Animals are slaughtered at Pel-Freez's United States Department of Agriculture (USDA) licensed establishment in Rogers, Arkansas (P202). The rabbits receive ante- and post-mortem health inspections at the abattoir by a USDA Inspector and found to be free from infectious or contagious diseases.

**HEALTHY  
ANIMAL  
STATEMENT:** This product is made from raw materials that were collected from animals found free from obvious signs of infectious and contagious disease.

**PROCEDURE:** Lungs with tracheas attached are collected from young healthy rabbits (New Zealand White, 8 – 12 weeks of age, either sex and fasted) within 6 hours of slaughter, placed in ice water to remove excess blood, and frozen on dry ice. The lungs are stored at or below -10 °C prior to shipment on dry ice.

**APPEARANCE:** Red in color, fleshy texture, and natural blood odor.
