

Certificate of Analysis

PRODUCT: Rabbit Lung with Trachea, Young*

CODE NO: 41226

LOT NO: 29943

**DATE OF
MANUFACTURE:** October 26, 2021

STORAGE: At or below -10 °C

ORIGIN: New Zealand White rabbits, 8-12 weeks old, are obtained from established and monitored colonies located exclusively in the United States. Animals are slaughtered at Pel-Freez' United States Department of Agriculture (USDA) licensed establishment in Rogers, Arkansas (P202). The rabbits receive ante- and post-mortem health inspections at the abattoir by a USDA Inspector and found to be free from infectious or contagious diseases.

**HEALTHY
ANIMAL
STATEMENT:** This product is made from raw materials that were collected from animals found free from obvious signs of infectious and contagious disease.

PROCEDURE: Lungs with tracheas attached are collected from young healthy rabbits (New Zealand White, 8 – 12 weeks of age, either sex and fasted) within 6 hours of slaughter, placed in ice water to remove excess blood, and frozen on dry ice. The lungs are stored at or below -10 °C prior to shipment on dry ice.

APPEARANCE: Red in color, fleshy texture, and natural blood odor.
