Pel-Freez®

Certificate of Conformity

PRODUCT: Young Rabbit Lung with Trachea

CODE NO: 41226

LOT NO: 35434

ORIGIN: New Zealand White rabbits, 8-12 weeks old, are obtained from established and monitored colonies located exclusively in the United States. Animals are slaughtered at Pel-Freez's United States Department of Agriculture (USDA) licensed establishment in Rogers, Arkansas (P202). The rabbits receive ante- and post-mortem health inspections at the abattoir by a USDA Inspector and found to be free from infectious or contagious diseases.

PROCEDURE: Lungs with tracheas attached are collected from young healthy rabbits (New Zealand White, 8 – 12 weeks of age, either sex and fasted) within 6 hours of slaughter, and placed in ice water to remove excess blood and frozen on dry ice and the stored at or below -10°C prior to shipment on dry ice.

APPEARANCE: Red in color, fleshy texture, and natural blood odor.

QUALITY ASSURANCE

Quality Control Release Date: January 25, 2013

A handwritten signature in black ink, appearing to be 'S. J. P.' or similar, written over a horizontal line.
