

Certificate of Conformity

PRODUCT: Crude Bovine Testes Extraction (Fresh)

CODE NO: 57151

LOT NO: 11440

**DATE OF
MANUFACTURE:** April 24, 2018

STORAGE: -70 °C

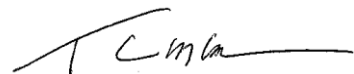

ORIGIN: USA

**HEALTHY
ANIMAL
STATEMENT:** Bovine testicles were collected in the contiguous 48 United States. The product was obtained only from USDA inspected facilities where the animals receive ante and post mortem inspection and are found free of contagious diseases.

DESCRIPTION: Bovine testicles are received fresh. The extraction is performed using a series of homogenizations, extractions, resuspensions, and centrifugations. Ultimately, after centrifugation, the precipitate pellet is collected and stored at -70°C.
