

PRODUCT DATASHEET

Anti-GFAP (N206A/8) Recombinant Guinea Pig Chimeric mAb FL594 Conjugate

Overview

Catalog #	74-240-FL594 (100 µL size)
Conjugate	FL594 Ex: 594 nm, Em: 615 nm
Isotype	IgG
Clone Number	N206A/8
Concentration	0.5 mg/mL
Host Species	Guinea Pig Recombinant
Format	Purified by affinity chromatography
Buffer	1X PBS, 0.05% Sodium Azide pH 7.4
Applications	ICC, IHC
Species Reactivity	Drosophila, Guinea Pig, Human, Mouse, Polar Bear, and Rat
Immunogen	Synthetic peptide amino acids 411-422 (KTVEMRDGEVIK) of human GFAP (accession number P14136)
Molecular Weight	50 kDa

Details

Target Description	Glial fibrillary acidic protein (GFAP) is an intermediate filament with many different isoforms, and acts as a structural protein in the cytoskeleton. It is expressed in astrocytes in brain and is often used as an astrocyte marker. GFAP is believed to be involved in many CNS processes including cell communication and mitosis. GFAP has been found to be involved in Alexander disease and Wernicke's encephalopathy.
Specificity	Cross-reacts with GFAP-R416W and other GFAP mutant proteins. Does not cross-react with other proteins (based on KO validation results).
Purification Method	This recombinant antibody is a chimeric antibody created by replacing the mouse heavy and light constant regions of our NeuroMab clone N206A/8 with guinea pig IgG heavy and light constant regions. As such this antibody retains the same binding performance as the original clone N206A/8 but can be detected using standard anti-guinea pig secondary antibodies allowing flexibility for multiplexing applications. This antibody is expressed recombinantly in mammalian cells and then affinity purified from the cell culture media and conjugated.
Quality Control Tests	Each new lot of antibody is quality control tested by Western blot on rat whole brain lysate and confirmed to stain the expected molecular weight band.

Storage

Aliquot and store at $\leq -20^{\circ}\text{C}$ for long term storage. For short term storage, store at $2-8^{\circ}\text{C}$. For maximum recovery of product, centrifuge the vial prior to removing the cap.

Our Guarantee

As an original manufacturer, we are dedicated to creating quality and reproducible antibodies that further your research. We provide personalized customer support from the scientists that made the antibody and offer a free replacement or 100% refund if we cannot resolve an issue. Order today and experience our 50+ year passion for science.

Note: For research use only. Not intended for therapeutic or diagnostic use. Use of all products is subject to our terms and conditions, viewable on our website.

FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES.
