Description

Bovine whole blood is collected from healthy animals, greater than 1 year of age and of mixed gender, and breed accordingly to USDA guidelines. The blood is mixed with 3.8% Sodium Citrate using a 1:10 dilution, bottled and stored on wet ice prior to shipment.

Physical State

Fresh, non-frozen liquid

Testing

No analytical testing is performed on this product. The blood is visually inspected at the time of bottling to ensure the absence of clots.

Packaging

Polypropylene bottle

Storage Temperature

2 – 8 °C

Shipping Conditions

Shipped on the day of collection on wet ice.

Expiration

This product is perishable. The exact shelf life will depend upon the user's application.

For research use or further manufacturing only. Not for use in diagnostic procedures, or for human or animal consumption.
